SOCIAL MEDIA COVERAGE

World Cancer Day

This World Cancer Day, GAPIO supported 'Close the care gap' and spread a message on its social media handles.

GAPIO appealed all the doctors and healthcare professionals to come together identify and address the barriers that exist for many people around the world and aim to improve access to quality care, including screening, early detection, treatment and palliative care and to unite in the fight against cancer.

International Day of Zero Tolerance to Female Genital Mutilation

GAPIO created awareness about Female Genital Mutilation on account of International Day of Zero Tolerance to Female Genital Mutilation held on 6th February 2022. This practice harms young girls physically and psychologically, leaving them traumatized and unable to enjoy a happy and fulfilling life. FGM is a violation of girls' and women's human rights, as well as a violation of women's rights to health, security, and physical integrity. 'No Time for Global Inaction, Unite, Fund, and Act to End Female Genital Mutilation.'

Let's stand together in the fight against FGM!

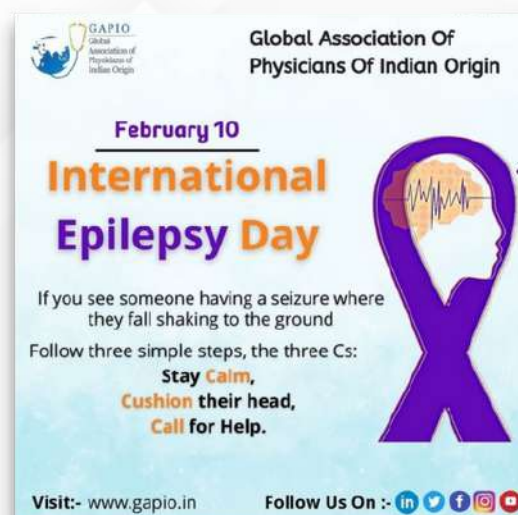

International Epilepsy Day

Epilepsy is the 4th most prevalent neurological disease.

Epilepsy is Chronic disorder of the Brain which is characterized by recurrent seizures or fits.

Epilepsy is mostly treatable with medications, start treatment as soon as it is diagnosed.

On account of International Epilepsy Day held on 10th February, GAPIO stood with those who are battling epilepsy and said that with more awareness, we can make change and start seizing opportunities to find a cure.

GAPIO Honours' List February 2021

Under the GAPIO initiative of Monthly Honors' focusing on GAPIO members' achievements and contributions to healthcare, academia, research, innovation, and community service locally and abroad, published the Honor's list for the month of February as below:
