American University of Antigua College of Medicine (AUA) is an innovative medical school dedicated to providing a learner-centric education of the highest quality, granting opportunities to underrepresented minorities, fostering a diverse academic community, and ensuring that its graduates develop the skills and attitudes of lifelong learning, compassion, and professionalism. We also provide students who would otherwise be unable to receive a medical education with the tools to become successful physicians.

AUA was founded with the commitment to support underserved communities and to address the impending physician shortage with an emphasis on primary care. As such, the University recognizes its social responsibility to advance the field of medicine and lead the next generation of physicians and healthcare professionals to respond to global healthcare needs.
